About

You can share this PDF with anyone you feel could benefit from it, downloaded the latest version from: [extjs4](#)

It is an unofficial and free extjs4 ebook created for educational purposes. All the content is extracted from [Stack Overflow Documentation](#), which is written by many hardworking individuals at Stack Overflow. It is neither affiliated with Stack Overflow nor official extjs4.

The content is released under Creative Commons BY-SA, and the list of contributors to each chapter are provided in the credits section at the end of this book. Images may be copyright of their respective owners unless otherwise specified. All trademarks and registered trademarks are the property of their respective company owners.

Use the content presented in this book at your own risk; it is not guaranteed to be correct nor accurate, please send your feedback and corrections to info@zzzprojects.com

Chapter 1: Getting started with extjs4

Remarks

This section provides an overview of what extjs4 is, and why a developer might want to use it.

It should also mention any large subjects within extjs4, and link out to the related topics. Since the Documentation for extjs4 is new, you may need to create initial versions of those related topics.

Examples

Installation or Setup

Unfortunately Sencha does not directly give you access to Extjs 4. Their download SDK links lead directly to the newer version of Extjs (currently 6). Although you can still find websites that are hosting the library files (I will have to leave you to it since Extjs is under the LGPL license for open source software on which you must agree).

Once you have the library downloaded all you have to do to use it in any of your HTML pages is create two bindings to the library, one to the .js files and one to the .css

Details can be found on http://docs.sencha.com/extjs/4.2.0/#!/guide/getting_started
