## Chapitre 1: Démarrer avec win-universal-app

#### Remarques

Développer et créer un package d'application universel. choisissez VS 2015 et installé Developer SDK.

#### Versions

Version 1.0 Date de sortie: 21 octobre 2016

#### Examples

Installation ou configuration

Nous avons 2 voies, nous pouvons installer l'application Universal dans les appareils Windows 10 (OS / Phone). Une application fonctionne à la fois pour mobile et OS

#### 1 Installer à l'aide de la commande Power Shell

Étape 1: Assurez-vous que l'application n'a aucune erreur et développée, puis cliquez avec le bouton droit sur Universal App Project dans l'explorateur de solutions.

Étape 2: Sélectionnez Store et choisissez l'option Créer un package d'application
